

The **BIG** Idea

- What have I learned this year?

AGENDA

- Approx. 45 minutes
- I. Warm Up (5 minutes)
 - II. Jeopardy (20 minutes)
 - III. Portfolio Review (10 minutes)
 - IV. Wrap Up: Skills Checklist (10 minutes)

MATERIALS

- PORTFOLIO PAGES:**
 - Portfolio pages 24-28, Grade 11 Skills Checklist
- FACILITATOR PAGES:**
 - Facilitator Resource 1, Grade 11 Jeopardy Board
 - Facilitator Resource 2, Grade 11 Jeopardy Questions
- Play money in hundred-dollar denominations (OPTIONAL)
- Timer (OPTIONAL)

OBJECTIVES

During this lesson, the student(s) will:

- Review their progress in Roads to Success, and identify areas of accomplishment.
- Consider their role as a member of the Roads to Success class.
- Identify one thing they'd like to learn about/improve next year.

OVERVIEW

In this lesson, students have the opportunity to celebrate what they've accomplished during the year – through a friendly game of Jeopardy, a review of their Portfolios, and a self-evaluation of their mastery of Roads to Success skills. At the end of class, students receive review pages from the Education After High School unit to assist them with college and financial aid research during the summer.

PREPARATION

- List the day's **BIG IDEA** and activities on the board.
- Use **Facilitator Resource 1, Grade 11 Jeopardy Board**, to create the Jeopardy game template on an overhead transparency or chart paper
- Make copies of the following items from previous lessons. Staple these together and place each set in a file folder, one per student.
 - **Portfolio page 13-22, My Top Ten Schools** (Education After High School 5), 5 copies per student
 - **Portfolio page 23, College Comparison Chart** (Education After High School 8), 1 copy per student
 - **Student Handbook page 135, Resources for School Research** (Education After High School 4), 1 copy per student
 - **Student Handbook page 145, My Top Ten Schools Tips** (Education After High School 6), 1 copy per student
 - **Student Handbook page 146, Financial Aid 411** (Education After High School 7), 1 copy per student
 - **Student Handbook pages 148-149, College Application Elements** (Education After High School 8), 1 copy per student

IMPLEMENTATION OPTIONS

Jeopardy options:

Instead of keeping track of points, you may wish to award teams play money for each question answered correctly.

The Jeopardy game is intended to help students celebrate how much they've learned. For that reason, you may wish to eliminate the penalty for wrong answers. You may choose to eliminate the final Jeopardy question as well, since it's possible for a team that was winning throughout the game to lose on the final question.

ACTIVITY STEPS

I. Warm Up (5 minutes)

1. **SAY SOMETHING LIKE:** Today, we're going to see how much you've learned since our first Roads to Success class last fall. There's no final exam or project – all the evidence is accumulated in the Portfolios you've been working on throughout the year. We'll play a trivia game, review your Portfolios, and have a look at the skills you've worked on and see how you think you measure up.

II. Jeopardy (20 minutes)

1. **SAY SOMETHING LIKE:** How many of you have ever seen the game Jeopardy on TV? [Students respond. Have somebody describe it in 25 words or less.]

[Direct students' attention to **Facilitator Resource 1, Grade 11 Jeopardy Board**, on the overhead projector or chart paper.]

SAY SOMETHING LIKE: The object of the game is to accumulate money (or in this case, points) by answering questions correctly. Categories are written across the top of the board. Players choose a category, for example, Careers, and a money value from \$100 - \$500. Where would you expect to find the hardest questions? (*At the bottom of the board, where the money values are higher.*)

If you get the question right, that number of points is added to your score. But if you get the question wrong, you lose that number of points.

At the end of the game, there will be a Final Jeopardy question, which is often harder than the others. You may bet none, some, or all of your points on the final question. If you get it right, you win the number of points you bet. If you get it wrong, what happens? (*You lose the same number of points.*)

Is everybody ready? Let's get started!

2. [Play can occur in two teams, taking turns choosing questions and collaborating on the answers. Unlike the televised version, the team that chooses a question is the team that answers it. Alternatively, the game could be played with multiple teams, each collaborating and writing the answers to all questions on dry-erase boards. In this scenario, all teams with correct answers get points.]

[Appoint two students to stand at the board and serve as scorekeepers, with each keeping track of the points for one team.]

3. [At the end of 15 minutes of play, announce the Final Jeopardy category, review the rules, and have teams write down their bets.]
4. [Present the Final Jeopardy question, and set a timer for 1 minute or hum the Jeopardy theme twice through while each team privately records its answer.]

When the final outcome has been decided, congratulate the winners and point out particularly strong answers given by both sides.]

III. Portfolio Review (10 minutes)

1. **SAY SOMETHING LIKE:** As a group, you were able to remember practically everything we covered this year. Now let's see how well you did individually. Let's take some time to review your work. I'll give you about five minutes to look through your Portfolio. I want you to find the assignment you're proudest of, and mark the page. When I call time, I'll ask you to pair up and share what you found.
2. [After five minutes, call time and request that students pair up. Use an Engagement Strategy to choose who goes first, and have Partner A talk for one minute about what they're proudest of and why.]
3. [Call time, and have students reverse roles, with Partner B speaking and Partner A listening.]

IV. Wrap Up: Skills Checklist (10 minutes)

1. [Have students turn to **Portfolio pages 24-28, Grade 11 Skills Checklist**, to review skills covered in the 11th grade. Have students answer questions about what they're proudest of, their roles as class members, and what they'd like to learn next.]
2. [When students have finished, let them know how much you've enjoyed working with them during the past year, and that you'll begin next fall with more information on applications and financial aid. Wish them a great summer, and distribute file folders so that those who wish to continue to research independently may do so.]
