OBJECTIVES

During this lesson, the student(s) will:

- Learn about the different kinds of financial aid available for college.
- Recognize that family income and assets determine how much financial aid you are eligible for and that even expensive schools may provide enough aid to make them a viable option.

OVERVIEW

In this lesson, students are introduced to four kinds of financial aid: scholarships/awards, grants, work-study, and student loans. The first three are free sources of money; the fourth must be paid back.

First, students use sample scholarships and awards from FastWeb to complete a quick Scholarship Scavenger Hunt. Next, the students look at several family scenarios to understand the role of expected family contributions in determining grant and work-study awards. Finally, they discuss the advantages and disadvantages of loans.

PREPARATION

- List the day's **BIG IDEA** and activities on the board.
- Write the day's vocabulary words and definitions on the board.
- The following handouts need to be made into overhead transparencies or copied onto chart paper:
 - **Student Handbook page 63, Expected Family Contributions**
 - **Student Handbook page 64, Financial Aid Menu**
 - **Student Handbook page 69, Check-up Questions**
- Students may have financial aid questions beyond the scope of this lesson. For answers, please consult with your school counselor or refer to www.studentaid.ed.gov/guide.

VOCABULARY

Financial Aid: any type of assistance used to pay college costs.

Grant: also called gift aid, a grant is financial aid that doesn't have to be repaid. Grant aid comes from federal and state governments and from individual colleges, usually on the basis of financial need.

Scholarship: financial aid distributed according to requirements set by the scholarship provider, like excellence in academics or sports.

Loan: financial aid that must be repaid.

Work-Study Program: work-study is a federal program that provides students with part-time employment, often on campus, to help meet their financial needs.

IMPLEMENTATION OPTIONS

In **Activity II, Scholarships and Awards**, you may want to assign teams of students to work on **Student Handbook page 68, Scholarship Scavenger Hunt** together.

You may wish to contact your school counselor to figure out what local scholarships are available. You can then share this information with the students at the end of **Activity II, Scholarships and Awards**.

It's important to spend a few minutes on each type of financial aid, so feel free to abbreviate any of the Activity Steps in order to get to all four.

If you think your students will struggle to figure out the pros and cons of each type of aid on **Student Handbook page 69, Check-up Questions**, you may choose to complete these questions as a class.

ACTIVITY STEPS

I. Warm Up: Dollars for College (5 Minutes)

1. [As students enter the room, direct them to **Student Handbook page 62, College Scholarships Awarded**, and ask them to circle the best answer.]
2. **SAY SOMETHING LIKE:** How many of you were worried last week when you saw how expensive college can be? [Show of hands.] This week, we're going to put some of those worries to rest. Most students receive some kind of **financial aid** – money from outside the family – when they go to college. Financial aid comes in different forms, but its purpose is to help you get all the money together that you need for different college costs.

We'll talk about 4 different ways to help pay for college, and the advantages and disadvantages of each. But first, the answer to how our mystery couple helped pay for their college education. Izzy Bristow and John Dyer, 18-year-olds from Colorado, were the winners of the ninth annual Stuck at Prom® Scholarship Contest. More than 215 couples from 40 states and 4 Canadian provinces entered this competition. All of the contestants created the clothing they wore to their high school prom from duct tape. The sponsor of the scholarship was Duck Tape brand duct tape. See www.stuckatprom.com for details.

II. Scholarships and Awards (15 minutes)

1. **SAY SOMETHING LIKE:** Can anyone think of other things a student might get a scholarship for? [Allow students to respond and list their answers on the overhead or board. Make sure to include the following areas: *outstanding grades or test scores; excellence in sports, music, art, science and other subjects.*]

SAY SOMETHING LIKE: People giving out scholarships aren't always just interested in great students and great athletes. Sometimes scholarships are given to students based on where they're from, their race or ethnicity, or even quirky things like left-handedness or being under 4' 10."

- **Scholarship Websites**

In the old days, finding scholarships that matched your particular talents was pretty hit or miss. The Internet has changed that. You can use the **Scholarship Finder** in CFWW.com to search for scholarships. You can also sign up on websites like www.fastweb.com and www.collegeboard.com, and find a list of scholarships and awards that might work for you.

- **Privacy**

These websites will ask you for lots of personal information, which is how they figure out which scholarships match your talents. It's a good idea to check their Privacy Policy to see with whom they share your info. There's usually a box to check to let them know that you don't want to hear from any of their advertisers.

- **What You'll Find**

[Ask students to turn to **Student Handbook pages 65-67, Scholarships and Awards**. Note that these are actual scholarships and awards found on FastWeb in 2006. Call their attention to **Student Handbook page 78, Scholarship Scavenger Hunt**, which follows 3 pages of scholarship info, and read through the directions. Explain that they'll have 7 minutes to come up with as many scholarships as they can, each suitable for a particular student.]

[When 7 minutes have passed, bring the students back as a whole group and have them report on their findings.

- What was the weirdest scholarship they found?
- Which ones seemed like they'd be very competitive?
- Did they find any awards that they'd like to try for in the future?]

2. **SAY SOMETHING LIKE:** You'll notice that many of the Scholarships and Awards are highly competitive. For example, twelve Siemens Westinghouse prizes are given to the top math and science projects in the country each year. In 2005, nearly 1,700 students submitted work for judging. If you're not at the top of your class in one of these subjects, this is not a realistic place to look for financial help.

Local scholarships (which may not appear on national websites like FastWeb) are often less competitive. Applying for them may be a better use of your time, and you can get more info from your school counselor.

III. Grants and Work-Study (15 minutes)

1. **SAY SOMETHING LIKE:** The best kind of financial aid is free money – you don't have to pay it back. Scholarships are one kind of free money.

There are two more “free” kinds of financial aid – **grants** and **work-study programs**. You don't have to have a special talent or enter a competition to get a grant or be part of a work-study program. Grants and work-study programs are based on need. How do colleges tell if you need financial aid?

They ask your parents to fill out a Free Application for Federal Student Aid (the FAFSA). This happens in the middle of your senior year. The FAFSA asks for information about your family's income to determine how much help they can afford to give you in paying for college. The amount your family can afford to pay, as calculated on the FAFSA, is called your **Expected Family Contribution (EFC)**.

3. [Direct students' attention to **Student Handbook page 63, Expected Family Contributions**, for a look at how this determines how much grant money they may receive.]
4. **SAY SOMETHING LIKE:** Take a look at the family descriptions on the Family Contributions page. These are hypothetical situations; actual Expected Family Contributions will be different based on the information given on the FAFSA. But these will give you a good basis to compare. If your family makes \$8,000 a year, how much will they be expected to contribute toward college? (*nothing*) 25,000? (\$350) \$50,000? (\$5,000)

The government will give free college grants to students whose expected family contributions are low. You can use this money for school and don't have to pay it back.

If you have a low Expected Family Contribution, you're also eligible for a work-study program. Work-study students work part-time at the college to help pay for their expenses.

IV. Loans (5 minutes)

1. **SAY SOMETHING LIKE:** The fourth and final category of financial aid is student loans. How is this different from the "free money" available through scholarships and awards, grants, and work-study programs? (*You must pay this money back when you graduate. You will have to make mandatory payments, just like a car loan.*) What happens if you don't graduate or if you accept a job after graduation where you don't earn a lot of money? (*still have to pay it back*) Student loan payments can add up to hundreds of dollars a month – over the course of many years – so you should only use this option after all of your "free money" sources have been exhausted.

V. Wrap Up (5 minutes)

1. **SAY SOMETHING LIKE:** In 2004–2005, free grant aid averaged about \$1,800 per student at two-year public colleges, over \$3,300 at public four-year colleges, and about \$9,600 per student at private four-year colleges.

[Write the above figures on the board.]

SAY SOMETHING LIKE: So it's important not to let a high price tag discourage you from a school you really want to attend. About two-thirds of all students do not pay anywhere near the full costs of a college. It helps to know all your options before you make a decision.

There will be Roads to Success classes during your senior year to help you complete the paperwork you need to apply for financial aid. In the meantime, it's not too early to check out the CFWV.com , FastWeb, College Board, and Scholarships.com websites to see what kinds of scholarships are available.

2. [Instruct students to turn to **Student Handbook page 69, Check-up Questions**. Give students two minutes to brainstorm possible pros and cons for each type of aid. After that time, discuss the pros and cons as a class.]
3. [Assign **Student Handbook pages 70 and 71, Scholarship Research** and **Student Handbook page 72, My Scholarships**, as homework. Be sure and go over the directions with the students, with particular attention to instructions on how to opt out of unwanted advertising.

NOTE: You may wish to provide incentives to those students who bring their completed homework to next week's class.]

EXTENSION ACTIVITY

The FAFSA is available online at **www.fafsa.ed.gov**. If students are interested in finding out what their family's current approximate EFC is, they might consider asking a parent to help them complete forms available on the websites listed at the bottom of **Student Handbook page 62, College Scholarships Awarded**.

College Scholarships Awarded

DO NOW: Carefully consider the photo and circle the best explanation of why these students won big scholarship money.

In 2009, this couple won \$3000 each to help pay for their college educations. What did they do to receive this money?

- Starred in their high school musical.
- Started an international project for peace.
- Designed the outfits they wore to prom out of Duck Tape brand duct tape.
- Entertained kids at a local children's hospital.

DO LATER: To look for scholarships that match your talents, use the Scholarship Finder in CFVV.com or sign up at one of these sites:

- www.fastweb.com
- www.collegeboard.com
- www.scholarships.com

Note: Check the websites' privacy policies to see who will have access to your info. Many websites of this type give you the option of "opting out" of receiving e-mail from advertisers.

For a preview of the **Free Application for Federal Student Aid**, visit www.fafsa.ed.gov.

For a calculator that estimates your family's Expected Family Contribution, go to www.petersons.com/finaid/efcsimplecalc.asp or www.FAFSA4caster.ed.gov.
